Honorable Village President
Members of the Village Board
Citizens of the Village of Westchester

The Comprehensive Annual Financial Report (CAFR) for the Village of Westchester, Illinois (Village) is hereby submitted. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the Village. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and changes in financial position of the various funds of the Village and the Village as a whole at the entity-wide level. All disclosures necessary to enable the reader to gain an understanding of the Village's financial activities have been included.

We are pleased to report that the independent audit firm Sikich LLP, Certified Public Accountants, have issued an unmodified opinion on the Village's financial statements for the year ended April 30, 2014. The independent auditors' report is located at the front of the financial section of the CAFR.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

The Village expended in excess of \$500,000 of federal funds during the fiscal year ended April 30, 2014 and, therefore, was required to undergo an annual single audit in conformity with the provisions of the Single Audit act of 1996 and U.S. Office of Management and Budget Circular A-133, *Audits of State and Local Governments and Non-Profit Entities*.

The financial reporting entity (the government) includes all the funds and entity-wide accounting of the primary government (i.e., the Village of Westchester as legally defined), as well as all of its component units. Component units are legally separate entities for which the primary government is financially accountable.

Blended component units, although legally separate entities, are, in substance, part of the primary government's operation and are included as part of the primary government. The Police Pension and Fire Pension Funds are reported as fiduciary funds of the primary government. Based on the criteria of GASB Statement No. 61, *The Financial Reporting Entity: Omnibus – an amendment of GASB Statements No. 14 and No. 43I*, there are no component units for which the Village is considered to be financially accountable for.

Profile of the Village of Westchester

The Village of Westchester was incorporated in 1925 under the provisions of Chapter 24 of the Illinois Revised Statutes, as amended, and operates as a non-home rule unit of government. Located approximately 14 miles west of Chicago in Cook County, the Village is home to 16,718 residents based on the 2010 Federal Census. The Village is primarily residential in nature, with housing stock consisting of 5,724 detached single-family homes and 1,278 multi-family dwelling units. The Village encompasses a 4.5 square mile area and is substantially developed.

The Village operates under a council-manager form of government as defined by the Illinois Municipal Code. The Village President, Village Clerk, and six trustees are elected at large to serve four year terms, with three trustees elected every second year. The Village Attorney is appointed by the Village President, with the advice and consent of the Village Board. The Village Manager is hired by the Village President and Board of Trustees. All Department managers are hired by the Village Manager.

Management of the Village is responsible for establishing and maintaining internal controls designed to provide assurance that the assets of the Village are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived and (2) the valuation of costs and benefits requires estimates and judgments by management.

The Village provides a full range of services. Those services include police and fire protection, water service, sanitary sewer service, stormwater sewer service, the construction and maintenance of streets and other public infrastructure, refuse removal, planning and zoning, code enforcement, and financial and general administrative services.

The annual budget is the primary guiding document for the Village's financial planning and control. In addition, the Village maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual budget approved by the Village's governing body. Activities of the General Fund, Special Revenue Funds, Capital Project Fund, Enterprise Funds and Pension Funds are included in the annual budget. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the budgeted amount) is established at the individual fund level.

Factors Affecting the Village's Economic Condition

The Village has been impacted at the local level by regional, state, and national economic conditions. As with other municipalities in the Chicago metropolitan area, Westchester has been impacted by the decline in the housing market, unemployment, credit/loan issues, increasing pension costs, position of the stock market and the fiscal crisis in the State of Illinois government.

Fortunately, the lack of large commercial or retail establishments in Westchester has resulted in a less dramatic downturn due to the community's reliance on other sources of revenue apart from sales taxes. The overall economic conditions appear to be stabilizing and have caused revenue projection for state and local revenue to be flat as compared to the prior year. The most recent year-over-year sales tax analysis shows a 9.7% decrease for the last six months, primarily attributable to the closing of the Dominick's Grocery Store in February 2014. The state income tax analysis shows an 8.3% increase for the last six months.

The Village property tax base is founded primarily in its residential housing stock. The assessed value of Westchester properties decreased from \$499,925,456 at December 31, 2012 to \$472,727,706 at December 31, 2013. The property tax cap level for the 2014 tax year levy to be collected for the fiscal year beginning May 1, 2014, is expected to be 1.5%. Building activity increased in Fiscal 2014 due to leasehold improvements to the Westbrook Corporate Center and will increase in Fiscal 2015 due to the renovation of the Westbrook Commons retail center.

The Village's expenditures were impacted in recent years by two devastating one-hundred year floods that occurred in July 2010 and again in April 2013, causing more than half of the single family residential units in town to have either sewer backups or seepage in basements. The town was declared a disaster area after the 2010 and 2013 flood events by the President of the United States. The Village incurred approximately \$150,000 in unbudgeted expenditures in Fiscal 2013 related to the 2013 flood event, consisting primarily of debris removal, personnel overtime costs and equipment rental. The Village expenditures have also been impacted by numerous water main breaks in Fiscal 2014 and Fiscal 2013 due to the aging infrastructure of the Village and the severe weather during the winter of 2014.

Nevertheless, the Village's sound financial management, policies and procedures have resulted in the Village being in a comparatively stable financial position. The Village is monitoring its expenditures in an attempt to minimize its need to utilize the reserves of the Village for operating expenditures.

Economic Development Initiatives

The Village hired a Community Development director in September 2012 who holds a Master's Degree in Urban Planning to further the Village's Economic Development Initiatives. The Village has implemented the following business attraction/retention activities:

- The preparation and dissemination of a business retention survey.
- Staff is actively identifying and pursuing developers active in the Chicago market to consider Westchester as a place to do business.
- The Community Development Director represents and markets the Village at various regional events, such as the International Council of Shopping Centers networking events.
- The Mayor, Village Manager and Community Development Director attend Chamber of Commerce events, conferences/seminars.
- The Community Development Director maintains the available sites database.
- The Community Development Director promotes local businesses by including a list of recently opened businesses in the Village newsletter and on the Village's website.
- The Community Development Director developed brochures to distribute at conferences, seminars, meetings and online.

Tax Increment Financing is authorized in Illinois by the Act. Tax Increment Financing provides a means for municipalities, after the approval of "a redevelopment plan and project", to redevelop blighted, conservation or industrial park conservation areas ("TIF District") by pledging the anticipated increase in property tax revenues generated by private redevelopment to pay for the public costs incurred to stimulate private investment, new development and rehabilitation. In 1993, the Act was amended to allow for the transfer of property tax increment between adjacent TIF districts.

In 2011, the Village retained a consultant to prepare a report to determine whether tax increment financing and/or other related economic development programs would be recommended for the redevelopment and/or improvement of one or more of the three areas previously identified by the Village based on the Strategic Plan and a fourth area which included a now closed private high school (the "High School Area").

The Report identified economic development tools and public finance programs in conjunction with private development initiatives in order to encourage redevelopment efforts and recommendations for each of the study areas to in order to expand on existing and past redevelopment efforts.

In July 2013, Follett Corporation announced that it would be relocating its corporate headquarters to the Westbrook Corporate Center in Westchester. Follett Corporation was founded in Wheaton, Illinois in 1873 and is presently a \$2.7 billion, privately-held company providing products services, and solutions to the educational marketplace.

In December 2013, Roundy's Inc. announced it would be acquiring the Dominick's Grocery Store in the Westbrook Commons retail center with the intention to convert it to a Mariano's Fresh Market. The renovation plans include the expansion of the existing store from 51,000 sq feet to 80,000 sq feet. The store is expected to open in early November 2014. The plan includes renovations to the entire retail shopping center including façade and landscape improvements, a new parking lot and signage.

During 2014, the Village also issued permits for the construction of a Sherwin Williams Paint Store, construction of a halfway house and paddle ball courts at the Chicago Highlands Golf Course and several significant leasehold improvements within the Westbrook Corporate Center including Kerry Test Kitchens, Silveredge Consulting and Sterling Engineering.

In Fiscal 2014, the Board of Trustees authorized the Village of Westchester Façade grant Program to support rehabilitation and preservation of commercial property; encourage new business; and retain, revitalize, and expand existing business in Westchester. Property owners who propose to install at least \$5,000 of total improvements, are eligible to receive a grant equal to 50% of eligible costs, up to a maximum grant of \$7,500. The maximum amount of the grant will be computed on the basis of two hundred fifty dollars (\$250) per linear foot of building frontage. Approval of the grants is based on the merit and design of project upon review by Economic Development Committee (EDC) and the Village Board. The Village reserves the right to prioritize applications on the basis of scope of work, level of private investment, and relative impact of the proposed improvements on the business district.

Flood Mitigation

The Village entered into an intergovernmental agreement with the Metropolitan Water Reclamation District of Greater Chicago (MWRD), executed May 6, 2014, which provides for the expansion of the existing Mayfair Reservoir for additional storage and the installation of a storm sewer for additional flooding relief. The Mayfair Reservoir is located in Mayfair Park, which is north of 31st Street and west of Mayfair Avenue. During the 2010 and 2013 storm events, this area was subject to severe flooding which damaged basements of over 120 homes and first floors of over 30 homes in each of the storm events. Water surface elevations and depths at the Mayfair Reservoir and in the depressional area between Carlisle and Bedford Streets are controlled by a combination of storage capacity of the Mayfair Reservoir, storm sewer capacity, inlet capacity, elevation of the receiving water body (Salt Creek) and overland flow route elevations and capacity. Our engineers estimate that the expansion of the Mayfair Reservoir will provide an additional 27 acre-feet of storage which should result in a lowering of water surface elevations downstream of the Mayfair Reservoir of approximately 2-feet with beneficial, but diminishing, reductions along the corridor to Salt Creek. The Project budget is estimated at \$2,586,650. MWRD will participate in funding not to exceed \$2,121,000. The Village will finance the remaining cost of the Project. Construction is scheduled to commence in October 2014 on the expansion of the reservoir. The additional storm sewer will be constructed in Spring 2015.

Long-Term Financial Planning

In April 2013, the Board of Trustees voted to outsource the functions of the E-911 telecommunications system. The outsourcing of these services is estimated to provide a cost savings of approximately \$1.2 million over the next five fiscal years.

The Village has engaged in capital planning activities which extended beyond the annual budgetary period. In conjunction with the budget for the fiscal year which began May 1, 2013, budgeted forecasts of revenues and expenses for all funds were made for fiscal 2014 and for the following two fiscal years.

The Village identified several capital improvement projects, including but not limited to:

- Street resurfacing, reconstruction and repair/maintenance.
- Capital equipment replacement, including fleet vehicles and heavy machinery.
- Water and sanitary sewer system repairs, replacements and improvements.
- Village-owned buildings/facilities improvements.

In the November 6, 2012 primary election, the Village residents passed a referendum authorizing the Village to assess and collect a one percent non-home rule sales tax. These taxes were assessed beginning January 1, 2013 and are restricted for infrastructure improvements.

In February 2013, the Village issued \$5,800,000 Taxable General Obligation Bonds, Series 2013 to fund street reconstruction and repair. The debt service will be made from the proceeds of the Village's non-home rule sales tax. The Bonds were used to provide funds to finance certain public infrastructure improvements, specifically rebuilding local roadways and related water main replacements. The bond proceeds funded the rehabilitation of approximately 24 streets during Fiscal 2013 and Fiscal 2014.

In anticipation of the 2013 bond issuance, the Village received a rating from Moody's Investor Services of Aa2. Assignment of the initial Aa2 rating reflects the Village's moderately sized and conveniently located tax base; sound financial position supported by ample operating reserves; and a manageable debt profile.

In March 2014, The Village of Westchester received notification of funding for a Local Agency Functional Overlay (LAFO) for Enterprise Drive/Constitution Drive from Wolf Road to Cermak Road in the Village of Westchester. The Village entered into a Local Agency Agreement for Federal Participation with the Illinois Department of Transportation which will provide for federal participation of 80% of the design and construction cost of the project, not to exceed \$648,000. Construction began in August 2014 and is scheduled for completion in early November 2014.

In April 2014, the Village expended \$98,550 for a general ledger software program. The implementation of the new financial management software system will provide enhanced financial reporting and analysis.

Recognizing the importance of public safety, the Village made significant investments in public safety equipment in Fiscal 2014. In December 2013, the Village expended \$465,000 for a fire rescue squad that was primarily funded through a Department of Homeland Security Assistance to Firefighters Grant in the amount of \$441,750. The Village was also fortunate to receive a Department of Homeland Security Assistance to Firefighters Grant in the amount of \$53,295 to fund the acquisition of fire radios in October 2014. In March 2014, the Village expended \$196,666 for a new ambulance. In July 2013, the Village expended \$27,886.88 to acquire a defibrillator. In November 2013, the Village expended \$14,779.68 on a Stryker power cot to reduce potential for injury to paramedics.

In conjunction with the outsourcing of the Village's 911 Dispatch Center in October 2013, certain capital additions were required to effect the transition of the dispatch function to the third party provider. In August 2013, the Village expended \$199,695 for a computer aided dispatch (CAD) system for the police department. In January 2014, the Village expended \$40,731 on a microwave satellite dish for police communications. The microwave satellite dish was funded through a capital grant from the Illinois Department of Commerce and Economic Opportunity. In March 2014, the Police Department expended \$18,500 for license plate recognition system hardware and software for use by the patrol division to aid in apprehension of traffic violators and wanted subjects, as well as the locating of stolen autos and missing people.

In November 2013, the Village entered into a lease purchase agreement in the amount of \$54,150 for the acquisition of an end loader and in February 2014, the Village entered into a lease purchase agreement in the amount of \$50,572 for a dump truck to increase the efficiency of our public works department.

The Village invested \$306,252 in LED street lights in Fiscal 2014 to reduce energy costs to its residents. The Project qualified for a Public Sector Energy Efficiency Rebate from the Illinois Department of Commerce and Economic Opportunity in the amount of \$98,255.67.

On July 30, 2014, the Village was awarded a public water supply loan obtained through the Illinois Environmental Protection Agency (IEPA) low interest loan program. The funding was used to repaint the exterior of the elevated storage tank. The estimated cost of the project is \$556,595 (eligible loan costs of \$548,895). The project is scheduled for completion in November 2014.

Relevant Financial Policies

The Village Board has in place several key written financial policies including a fund balance policy, capitalization policy, investment policy, and purchasing policy. The General Fund fund balance policy currently requires a reserve of 30% of current annual expenditures as reported in the most recent CAFR and the Utility Fund fund balance requires a reserve of 15% of current annual expenditures as reported in the most recent CAFR.

Thoughtful planning and conservative fiscal policies developed through guidance provided by the Village Board has set in place cash reserves which, if necessary, could be used to weather short-term revenue deficiencies. Future spending plans will be developed to maintain sufficient cash reserves and ensure that service levels to the Westchester community are in alignment with available resources.

Independent Audit

State statute requires an annual audit by independent certified public accountants. The accounting firm of Sikich LLP was selected by the Village Board. The auditor's report on the basic financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The Village was subject to the requirements of the federal Single Audit Act of 1996 and related OMB Circular A-133.

Acknowledgements

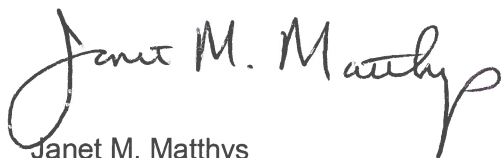

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Village of Westchester for its comprehensive annual financial report for the fiscal year ended April 30, 2014. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report could not have been accomplished without the efficient and dedicated services of Maureen B. Potempa, Finance Director, and the Village's management team. I would like to express my appreciation to each of those staff members who assisted and contributed to the preparation of this report.

In closing, I would also like to thank the Honorable President and Board of Trustees for their leadership and support in planning and conducting the financial operations of the Village in a responsible and progressive manner.

Respectfully submitted,

A handwritten signature in cursive script that reads "Janet M. Matthys". The signature is written in dark ink and is positioned above the printed name and title.

Janet M. Matthys

INDEPENDENT AUDITOR'S REPORT

The Honorable President
Members of the Board of Trustees
Village of Westchester, Illinois

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Village of Westchester, Illinois (the Village) as of and for the year ended April 30, 2014, and the related notes to financial statements which collectively comprise the Village's basic financial statements as listed in the table of contents. These basic financial statements are the responsibility of the Village's management.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Village's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Village of Westchester, Illinois, as of April 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

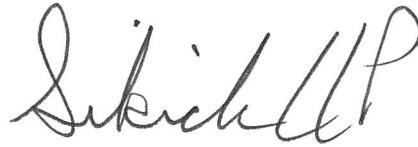

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village's financial statements as a whole. The introductory section, combining and individual fund financial statements and schedules and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements. The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 11, 2014 on our consideration of the Village's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Village's internal control over financial reporting and compliance.

A handwritten signature in black ink, appearing to read "Sukich LLP". The signature is fluid and cursive, with the letters "Sukich" followed by "LLP".

**GENERAL PURPOSE EXTERNAL
FINANCIAL STATEMENTS**

Village of Westchester, Illinois

Management's Discussion and Analysis

April 30, 2014

As management of the Village of Westchester, we offer readers of the Village of Westchester's financial statements this narrative overview and analysis of the financial activities of the Village of Westchester for the fiscal year ended April 30, 2014. Management's Discussion and Analysis (MD&A) is designed to focus on the current year's activities, resulting changes, and currently known facts. We encourage readers to consider the information presented here in conjunction with the basic financial statements to enhance their understanding of the Village's financial performance. Certain comparative information between the current year and the prior year is required to be presented in the MD&A, as is included in this year's narrative.

The Village of Westchester's MD&A is also designed to assist the reader in focusing on significant financial issues, provide an overview of financial activities, identify current changes, address subsequent year challenges, identify material deviations from the financial plan (approved budget), and identify issues with individual funds.

Financial Highlights

- ❑ The total assets of the Village of Westchester as reported in the Statement of Net Position exceeded its liabilities at the close of the most recent fiscal year by \$35.15 million (net position).
- ❑ Approximately 44.48% of the Village's \$22.66 million in expenses as reported in the Statement of Activities were paid for with program revenues, including \$8.86 million of charges for services, \$0.91 million of operating grants and contributions and \$0.31 million of capital grants and contributions. Of the remaining \$12.33 million, \$10.59 million was paid for with taxes, \$1.63 million was paid with state shared income, and \$0.11 million was paid for with miscellaneous income.
- ❑ The governmental activities net position is \$24.92 million, while the business-type activities had a net position of \$10.23 million.
- ❑ As of the close of the current fiscal year, the Village of Westchester's governmental funds reported combined ending fund balances of \$7.94 million, a decrease of \$2.39 million in comparison with the prior year's balance of \$10.33 million. Approximately \$4.03 million of this total amount is available for spending at the government's discretion (unassigned fund balance). The remainder of \$3.91 million is comprised of non-spendable assets (prepaid items) of \$.37 million, assets restricted for public safety, tourism, debt service, streets and transportation, and capital projects aggregating \$1.86 million, assets assigned to capital projects of \$.87 million and assets assigned to fund the subsequent year's budget of \$.81 million.
- ❑ The General Fund of the Village recognized \$14.66 million in revenues and other financing sources of \$1.14 million. After expenditures of \$15.42 million, the Village's General Fund was left with a fund balance of \$5.21 million, which is approximately 33.8% of current year expenditures, and is in compliance with the Village's minimum fund balance policy of 30% of current expenditures.

USING THE FINANCIAL SECTION OF THIS COMPREHENSIVE ANNUAL REPORT

This discussion is intended to serve as an introduction to the Village of Westchester's financial statements. This annual report consists of a series of financial statements. The Village of Westchester's general purpose external financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements (see page 4) are designed to provide readers with a broad overview of the Village of Westchester's finances, in a manner similar to a private-sector business and are reported using the accrual basis of accounting and economic resources measurement focus. The statement of net position presents information on all of the Village of Westchester's assets and liabilities, with the difference reported as net position. Over time, the increases or decreases in net position may serve as a useful indicator of whether or not the financial position of the Village of Westchester is improving or deteriorating.

The statement of activities (see pages 5 and 6) presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and unpaid obligations).

Governmental activities and Business-type activities - Both of the government-wide financial statements distinguish functions of the Village of Westchester that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities reflect the Village's basic services including police, fire, public works and administrative functions. The business-type activity of the Village is the Utility Fund.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Some funds are required to be established by Federal or State law and by bond covenants. The Village of Westchester, like other units of government, uses fund accounting to ensure compliance with finance-related legal requirements. All of these funds can be divided into three types: governmental funds, proprietary funds and fiduciary funds.

Governmental funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements and are reported using the modified accrual basis of accounting and current financial resources measurement focus. The governmental fund statements provide a detailed short-term view of the Village's general government operations and the basic services it provides. Most of the Village's services are reported in governmental funds, which focus on how money flows into and out of these funds and the balances left at year end that are available for use.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, the reader may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate a comparison between governmental funds and governmental activities.

The Village of Westchester maintains seven individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, the Capital Improvement Fund and Motor Fuel Tax Fund, which are considered to be major funds. Data from the other four governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements and individual schedules elsewhere in this report. The basic governmental fund financial statements can be found on pages 7 through 10 of this report.

Proprietary funds - The Village of Westchester maintains one Proprietary Fund. This fund is used to report the same functions presented as business-type activities in the government-wide financial statements. The Village of Westchester's proprietary fund is a report of the activities and balances in the Utility Fund, which is considered a major fund, using the accrual basis of accounting and economic resources measurement focus. Proprietary funds provide the same type of information as the government-wide financial statements, but in greater detail and include cash flows. The proprietary fund reflects a private-sector type operation, where the fee for service typically covers all or most of the cost of operation and maintenance including depreciation. The proprietary fund statements can be found on pages 11 through 14 of the report.

Fiduciary funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Village's own programs. The Village maintains two fiduciary funds for its police and fire pension funds and an agency fund. The accounting used for the pension funds is much like that used for the proprietary funds. Agency funds are custodial in nature and do not involve measurement or results of operations. The Fiduciary fund statements can be found on pages 15 through 16 of the report.

Notes to the Financial Statements

The Notes to the Financial Statements provide additional information that is essential to understanding the government-wide financial statements and the various fund financial statements. The notes to financial statements can be found on pages 17 through 51 of the report.

Infrastructure Assets

A government's largest group of assets (infrastructure – roads, bridges, etc.) are reported within the Governmental Activities column of the Government-Wide Statements. Additionally, the government must select to either (1) depreciate these assets over their estimated useful life or (2) develop a system of asset management designed to maintain the service delivery potential to near perpetuity. If the government develops the asset management system (the modified approach) which periodically (at least every third year), by category, measures and demonstrates its maintenance of locally established levels of service standards, the government may record its cost of maintenance in lieu of depreciation.

The Village has chosen to depreciate assets over their useful life. If a road project is considered maintenance—a recurring cost that does not extend the road’s original useful life or expand its capacity—the cost of the project will be expensed. An “overlay” of a road will be considered maintenance whereas a “rebuild” of a road will be capitalized.

Other Information

In addition to the basic financial statements and accompany notes, required and other supplementary information is also included in this report. The required supplementary information includes the management’s discussion and analysis, the funding progress of the Illinois Municipal Retirement Fund, the police and fire pension funds and the other post employment benefit plan and budget to actual comparisons of the General and any major special revenue or capital project funds, which can be found on pages 52 through 57 of this report. Supplementary schedules include combining and individual fund schedules of all non-major funds, and the pension trust funds which can be found on pages 58 through 66 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The following table reflects the Condensed Statement of Net Position:

Condensed Statement of Net Position as of April 30, 2014 (in millions)

	Governmental Activities		Business-Type Activities		Total	
	2014	2013 Restated	2014	2013 Restated	2014	2013 Restated

Net position:						
Net Investment in Capital						
Assets	21.16	21.90	8.75	7.47	29.91	29.37
Restricted	0.36	0.76	0.00	0.00	0.36	0.76
Unrestricted	<u>3.40</u>	<u>2.58</u>	<u>1.48</u>	<u>2.70</u>	<u>4.88</u>	<u>5.28</u>
Total Net Position	<u>\$24.92</u>	<u>\$25.24</u>	<u>\$10.23</u>	<u>\$10.17</u>	<u>\$35.15</u>	<u>\$35.41</u>

Normal Impacts

There are six basic (normal) transactions that will affect the comparability of the Statement of Net Position summary presentation.

Net results of activities – which will impact (increase/decrease) current assets and unrestricted net position.

Borrowing for capital – which will increase current assets and long-term debt.

Spending borrowed proceeds on new capital – which will (a) reduce current assets and increase capital assets and (b) increase capital assets and long-term debt, which will not change the net investment in capital assets.

Spending of non-borrowed current assets on new capital – which will (a) reduce current assets and increase capital assets and (b) will reduce unrestricted net position and increase net investment in capital assets.

Principal payment on debt – which will (a) reduce current assets and reduce long-term debt and (b) reduce unrestricted net position and increase net investment in capital assets.

Reduction of capital assets through depreciation – which will reduce capital assets and net investment in capital assets.

Current Year Impacts

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. Net position decreased \$0.26 million in fiscal year 2014. In the case of the Village of Westchester, total net position at April 30, 2014 was \$35.15 million, as compared to \$35.41 million (as restated) in total net position in the prior year. For more detailed information, see the Statement of Net Position on page 4 of the report.

The following table reflects the Condensed Statement of Activities:

Condensed Statement of Activities
For the Year Ended April 30, 2014 (in millions)

	Governmental Activities		Business-Type Activities		Total	
	2014	2013	2014	2013	2014	2013

Net position, April 30	<u>\$24.92</u>	<u>\$25.24</u>	<u>\$ 10.23</u>	<u>\$ 10.16</u>	<u>\$ 35.15</u>	<u>\$ 35.40</u>

Normal Impacts

There are eight basic (normal) impacts that will affect the comparability of the revenues and expenses on the Statement of Activities summary presentation.

Revenues:

Economic condition – which can reflect a declining, stable or growing economic environment and has substantial impact on state sales, replacement and hotel/motel tax revenue, as well as public spending habits for building permits, elective user fees and volumes of consumption.

Increase/decrease in Village approved rates and fees – while certain tax rates are set by statute, the Village Board has significant authority to impose and periodically increase/decrease rates and user fees.

Changing patterns in intergovernmental and grant revenue (both recurring and non-recurring) – certain recurring revenues (state shared revenues, etc.) may experience significant changes periodically while non-recurring grants are less predictable and often distorting in their impact on year to year comparisons.

Market impacts on investment income – the Village's investments may be affected by market conditions causing investment income to increase/decrease.

Expenses:

Introduction of new programs – within the functional expense categories (general government, public safety, and public works), individual programs may be added or deleted to meet changing community needs.

Change in authorized personnel – changes in service demand may cause the Village Board to increase/decrease authorized staffing. Staffing costs (salary and related benefits) represent the largest operating cost of the Village.

Salary increases (annual adjustments and merit) – the ability to attract and retain human and intellectual resources requires the Village to strive to approach a competitive salary range position in the marketplace.

Inflation – while overall inflation appears to be reasonably modest, the Village is a major consumer of certain commodities such as supplies, fuel and parts. Some functions may experience unusual commodity specific increases.

Current Year Impacts

Governmental Activities

The Village of Westchester's restated net position was \$25.24 million for governmental activities in fiscal year 2013. Net position decreased \$.32 million from 2013. The governmental net position represents approximately 71 percent of the Village's total net position, which decreased only slightly (1.3%) during this fiscal year.

Revenues

The Village's governmental activities had revenues of \$16.35 million in fiscal year 2014, which represents an increase of \$1.79 million from the prior year. Property taxes collected in 2014 represent the majority of revenues, at 37 percent of governmental activities. Other revenues, such as revenues collected in sales and use tax, utility taxes, income taxes, places for eating taxes, and hotel taxes increased only slightly over the prior year. Utility taxes vary from year to year and are dependent upon weather conditions and can be difficult to project exactly. State shared revenues with the State of Illinois may be viewed as an undependable source of income as they depend on the economy. Telecommunication taxes remained virtually the same, and could be causal due to the reliance of citizens on their communications appetite and changing provider rates.

Below is a chart depicting revenues to the Village of Westchester by source for the fiscal year 2014:

Governmental Activities - Revenues by Source (in millions)

Charges for Services	\$ 2.81
Operating Grants and Contributions	0.91
Capital Grants and Contributions	0.31
Property Taxes	6.02
Sales and Use Taxes	1.91
State Shared Income Taxes	1.63
Telecommunications Taxes	0.80
Utility Taxes	0.90
Other Taxes	0.95
Miscellaneous	<u>0.11</u>
TOTAL	<u>\$ 16.35</u>

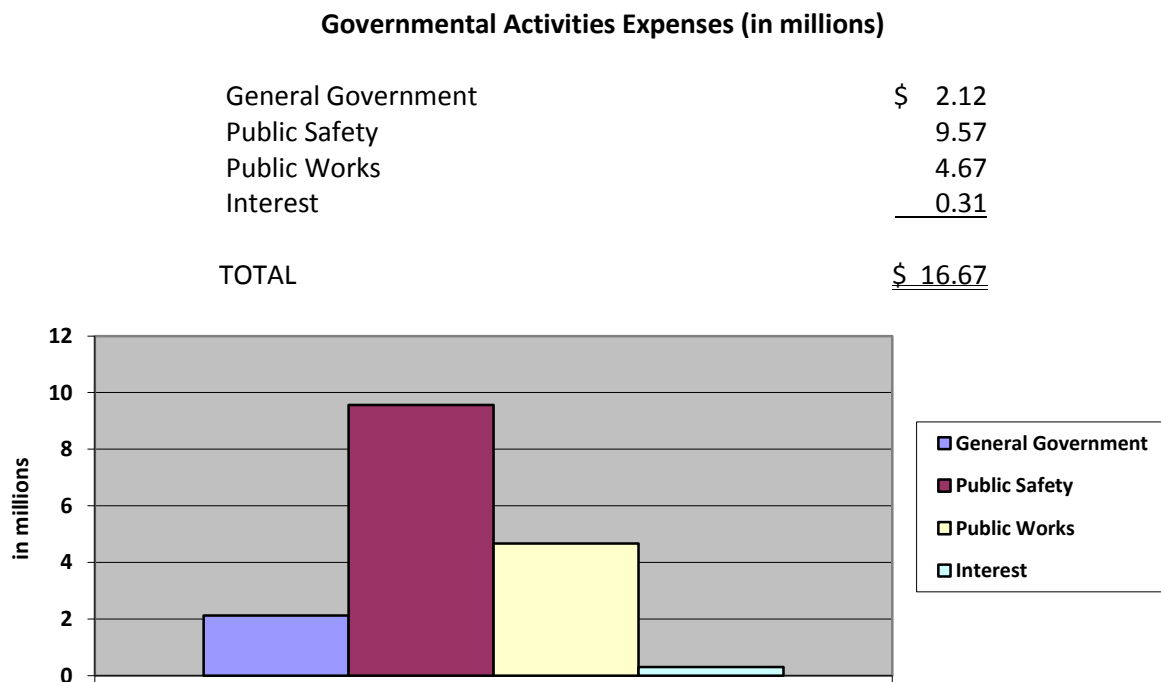

Expenses

General Government

Expenses incurred for governmental activities were approximately \$16.67 million for fiscal year 2014, which represents only a slight increase over the total of \$16.00 million in 2013.

The following chart depicts expenses to the Village of Westchester by activity for the fiscal year 2014:

Business-type Activities

The business-type activity of the Village of Westchester includes the Utility Fund. The Utility Fund serves the Village of Westchester customers by providing potable water and refuse service. Sales of water (revenues) can be affected by climate with warmer summers bringing higher demand. The Village of Westchester is under contract for rubbish collection with Waste Management through June 30, 2017. Rates for refuse collection increase only nominally over the life of the contract, with annual increases ranging from 2.5% to 4.0% over the duration of the contract.

The total assets of the business-type activity are \$13.15 million and the total liabilities are \$2.92 million, leaving net position at \$10.23 million. Current year activity increased net position by \$0.07 million. The operating revenues and expenses of the Utility Fund were \$6.06 million and \$5.99 million, respectively, for fiscal year 2014.

FINANCIAL ANALYSIS OF THE VILLAGE'S FUNDS

The Village of Westchester uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental Funds

The focus of the Village of Westchester's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Village of Westchester's financing requirements. The purpose of this section is to focus on the significant differences from year to year.

The Village of Westchester's major funds are the General Fund, the Capital Improvements Fund and the Motor Fuel Tax Fund. The Village's special revenue (non-major) funds include the 911 Fund, Hotel/Motel Tax Fund, and Police Forfeiture Fund. The Village also created a Debt Service fund during FY 2013 in concurrence with the issuance of the \$5,800,000 General Obligation (Alternate Revenue Bonds) Series 2013.

At the end of the current fiscal year, the Village of Westchester's governmental funds reported a combined (major and non-major) total ending fund balance of \$7.94 million, a decrease of \$2.39 million from fiscal year 2013, the majority of which is represented by the Village's unspent bond proceeds. Of that \$7.94 million, \$4.03 million is unrestricted and unassigned.

Revenues

General Fund: The General Fund had revenues of \$14,656,005, an increase of \$1,184,319 over prior year revenues of \$13,471,686. This represents an 8.79% increase.

Revenues	Fiscal 2014	Fiscal 2013	Variance	Percentage
Taxes	\$8,199,380	\$7,870,358	329,022	4.18%
Intergovernmental	3,572,289	2,887,104	685,185	23.73%
Licenses and Permits	1,208,708	1,129,173	79,535	7.04%
Charges for Services	614,656	599,662	14,994	2.50%
Fines and Forfeits	493,238	444,882	48,356	10.87%
Miscellaneous	567,734	540,507	27,227	5.04%

Taxes increased comparable to the prior year. This increase is attributed to the leveling off of the real estate market and decline in foreclosures. Intergovernmental revenue increased by 23.73%. Licenses and permits increased 7.04% as a result of the increase in building permits and compliance permits. These increases can be attributed to home and business improvement and remodeling projects within the Village. Furthermore, the Village saw increases in contractor, liquor, and vehicle licenses. These increases can be attributed to stricter adherence to Village codes.

Fines and Forfeitures were \$48,356 or 10.87% more in Fiscal 2014 as compared to fiscal 2013. This increase is attributable to an increase in police fines, circuit court fines, and towing fines.

Motor Fuel Tax Fund: The Motor Fuel Tax had revenues of \$537,320, up from \$474,471 in the prior year, or an increase of 13%. The ongoing operating source of revenue for this fund is an allotment from the State. The allotment amount received in 2014 increased only slightly from the prior year.

Capital Projects Fund: The Capital Projects Fund was established during the 2012-13 Fiscal Year to account for road projects within the Village funded by the newly adopted 1% Non Home Rule Sales Tax, which was approved by referendum in November 2012 and took effect within the Village on January 1, 2013. During fiscal 2014, the Village recognized revenue totaling \$667,118.

Expenditures

General Fund: During fiscal year 2014, expenditures were \$15,417,352, an increase of \$1,081,483 from \$14,335,869 in the previous year. This represents a 7.5% increase for the year.

Expenditures	Fiscal 2014	Fiscal 2013	Variance	Percentage
General Government	\$1,510,102	\$1,460,251	\$49,851	3.41%
Comm Development Dept	558,832	378,933	179,899	47.48%
Planning and Zoning	1,063	0	1,063	N/A
Fire & Police Commission	23,639	15,446	8,193	53.04%
Police 911	742,773	613,348	129,425	21.10%
Police Department	5,047,229	4,736,051	311,178	6.57%
Civil Defense	6,281	71,643	(65,362)	(91.23%)
Fire Department	3,913,548	3,876,174	37,374	0.96%
Public Works	1,678,274	1,793,410	(115,136)	(6.42%)
Capital Outlay	1,430,872	1,224,386	206,486	16.86%
Debt Service	504,739	166,227	338,512	203.64%

General government expenditures increased by \$49,851 or approximately 3.41%. Full-time salary expense increased \$33,611 or approximately 13% due to a 3% cost of living increase and contractual salary adjustments. The Administration Department incurred an increase in health insurance premiums of 7% over the prior fiscal year resulting in an increase in employee insurance costs of approximately \$6,000 and an increase in its member contribution to the Intergovernmental Risk Management Agency for liability and workers' compensation claims of approximately \$10,000. The Village also incurred an increase in its employer contribution to the Illinois Municipal Retirement Fund. The Department incurred costs of \$14,324 related to payments under two economic incentive agreements.

The Police and Fire Commission expenditures increased by \$8,193. These costs are primarily related to testing and hiring practices for the Fire and Police Departments.

Police Department expenditures increased overall by \$311,178. The Department recognized an increase in pension contributions of \$191,553, or 3.6% of the Department's current expenditures. The Department also incurred an increase in premiums of 7% over the prior fiscal year resulting in an increase in employee insurance costs of approximately \$44,000. Salaries of bargaining unit employees increased 2% in accordance with the collective bargaining agreements.

Fire Department current expenditures have increased by \$37,374. The increase is primarily due to the acquisition of a defibrillator in the amount \$27,887 and a power cot in the amount of \$14,780 that were recorded as operating supplies in current expenditures. Other current operating remained consistent over the previous year.

Capital Outlay expenditures increased due to the 2014 local road improvements funded from General Fund reserves. During Fiscal 2014, the Police Department purchased a computer aided dispatch system in the amount of \$191,695, or 3.8% of the Department's expenditures.

Motor Fuel Tax Fund: During the fiscal year expenditures were \$850,013, which was an increase over the previous year's expenditures of \$634,069. The excess expenditures are primarily a result of the record-breaking snowfall in the winter of 2014 which resulted in a Midwest salt shortage requiring the purchase of salt at premium market prices. The Village expended \$289,500 for road salt in excess of the original budgeted amount of \$66,000.

Capital Improvements Fund: During the fiscal year expenditures were \$2,923,526, which was an increase over the previous year's expenditures of \$188,324. The increased expenditures are primarily the result of road projects funded by the Village's 1% Non Home Rule Sales Tax.

Proprietary Funds

The Proprietary Fund is the Utility Fund. The Utility Fund is pleased to report an increase in net position during the 2014 fiscal year of \$62,614. This is the third consecutive year of operating gains after operating losses of \$595,070 and \$403,770 in 2011 and 2010, respectively. The net position of the Utility Fund at the end of fiscal 2014 equaled \$10.23 million, of which \$1.4 million, or 13.6%, is unrestricted. The net position is in compliance with the Village's net minimum fund balance policy which requires a net position of 15% of current year operating expenses.

Revenues

The Utility Fund recognized \$6,018,247 in charges for services, a decrease of \$95,665, or (1.56%) from \$6,113,912 in fiscal 2013. In the Utility Fund this decrease was attributable to decrease in the water consumption due to the extended cool temperature and rainy spring.

Expenses

Utility Fund operating expenses for the year increased from \$5,521,072 in fiscal 2013 to \$5,924,940, an increase of \$403,868 or 7.3%

Personnel Services increased from \$862,987 in 2013 to \$908,552 in 2014, an increase of \$45,565 or 5.2%. The increase is mostly attributed to two additional FTEs in the public works department – half of their wages and benefits are charged to the utility fund.

At \$2,471,678, contractual services represent the highest portion of expenses in the Utility Fund. The largest portion of contractual services represents fees paid to Waste Management for refuse collection. During the current year, the Village spent \$1.94 million, or 32.7% of utility fund expenditures on refuse collection.

Commodities increased from \$2,071,449 in Fiscal 2013 to \$2,237,189 in Fiscal 2014, an increase of \$165,740. This increase was due primarily to increases in water cost and refuse collection fees.

Operating Revenues vs. Operating Expenses - Proprietary Fund
(in thousands)

General Fund Budgetary Highlights

Over the course of Fiscal 2014, the Village realized actual revenues in excess of budgeted revenues in the amount of \$300,085. This is primarily attributed to increased collections in licenses & permits as well as charges for service.

The total General Fund expenditures of \$15,417,352 were under the budget amount by \$68,409. This amount included equipment purchases of \$1,143,998 which were paid for by the issuance of installment contracts. The General Fund budget anticipated a net change in fund balance \$(48,474); the actual change in fund balance was \$382,651 resulting in a positive financial result of \$368,494.

General Fund Budget and Actual (in millions)

Capital Asset and Debt Administration

Capital Assets

As of the end of Fiscal 2014, the Village of Westchester has capital assets, net of depreciation, of \$40.96 million, compared to capital assets, net of depreciation, of \$37.27 million held at the end of Fiscal 2013. For governmental activities, capital assets were increased by capital additions of \$4.34 million, and decreased by depreciation of \$1.69 million in the current year. For business-type activities, the capital assets were increased by capital additions of \$1.46 million, decreased by disposals of capital assets of \$0.96 million and decreased by depreciation expense of \$0.3 million, resulting in an overall decrease to net book value of capital assets at year end.

Capital assets are invested in a broad range of resources including, but not limited to, police and fire equipment, buildings, village facilities, computer equipment, water facilities, roads, streets, and sewer lines. Governmental capital assets, net, account for \$30.02 million or 73% of total capital assets. The business-type capital assets, net, represent \$10.94 million or 27% of total capital assets.

Capital Assets (in millions)

More detailed information about capital assets can be found in Note 4 to the financial statements.

Debt Administration

The Village's debt is comprised of the categories referenced below. The most notable is the \$5,800,000 General Obligation (Alternate Revenue Source) Bonds, Series 2013. The Village has dedicated the 1% non-home rule sales tax as an alternate revenue source to these bonds. Other additions to the Village's debt include several installment contracts (split between governmental activities and business type activities) and participation in an IEPA loan.

Please refer to Note 6 on Long-Term Debt for more information.

Long Term Debt (in millions)

VILLAGE OF WESTCHESTER, ILLINOIS

**RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF
REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE
GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF ACTIVITIES**

For the Year Ended April 30, 2014

**NET CHANGE IN FUND BALANCES -
TOTAL GOVERNMENTAL FUNDS**

\$ (2,391,945)

Amounts reported for governmental activities in the statement of
activities are different because:

Governmental funds report capital outlay as expenditures; however, they are
capitalized and depreciated in the statement of activities

4,419,832

The issuance of long-term debt is reported as another financing source
in governmental funds but as an increase of principal outstanding in
the statement of activities

(1,143,998)

The repayment of the principal portion long-term debt is reported as an
expenditure when due in governmental funds but as a reduction of principal
outstanding in the statement of activities

620,361

Some expenses in the statement of activities do not require the
use of current financial resources and, therefore, are not
reported as expenditures in governmental funds:

Depreciation	(1,685,062)
Change in compensated absences	52,746
Change in net pension obligation	(202,986)
Change in net other postemployment benefit asset	1,525
Amortization of premium on long-term debt	9,278
Change in accrued interest payable	3,405

CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES

\$ (316,844)

See accompanying notes to financial statements.

VILLAGE OF WESTCHESTER, ILLINOIS

NOTES TO FINANCIAL STATEMENTS

April 30, 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Village of Westchester, Illinois (the Village), have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to governmental units (hereinafter referred to as generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Village's accounting policies are described below:

a. Reporting Entity

The Village is a municipal corporation with a council/manager form of government. The Village has adopted the provisions of GASB Statement No. 61, *The Financial Reporting Entity*, under which these financial statements include all organizations, activities, functions, funds and component units for which the Village is financially accountable. Financial accountability is defined as the appointment of a voting majority of the component unit's board and either (1) the Village's ability to impose it over the component unit or (2) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the Village. The following component units and fiduciary funds have been included in the financial statements of the Village.

The Police Pension Fund of the Village exists solely to provide pension benefits for the Village's police officers. The Police Pension Plan may not issue bonded debt or levy taxes. The financial statements of the Police Pension Fund as of and for the fiscal year ended April 30, 2014, are reported in the Village's fund financial statements as a pension trust fund.

The Firefighters' Pension Fund of the Village exists solely to provide pension benefits for the Village's firefighters. The Firefighters' Pension Plan may not issue bonded debt or levy taxes. The financial statements of the Firefighters' Pension Fund as of and for the fiscal year ended April 30, 2014, are reported in the Village's fund financial statements as a pension trust fund.

Discretely Presented Component Unit

Based on the criteria of GASB Statement No. 61, *The Financial Reporting Entity: Omnibus - an amendment of GASB Statements No. 14 and No. 34*, there are no component units for which the Village is considered to be financially accountable for.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

b. Fund Accounting

The Village uses funds to report its financial position and the changes in financial position. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Funds are classified into the following categories: governmental, proprietary and fiduciary.

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of restricted or committed monies (special revenue funds), the funds committed, restricted or assigned for the acquisition or construction of capital assets (capital projects funds) and the funds committed, restricted or assigned for the servicing of long-term debt (debt service funds). The general fund is used to account for all activities of the Village not accounted for in some other fund.

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful for sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies primarily within the government (internal service funds).

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the government. The Village utilizes pension trust funds which are generally used to account for assets that the Village holds in a fiduciary capacity.

c. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the Village. The effect of material interfund activity, other than interfund service transactions, has been eliminated from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c. Government-Wide and Fund Financial Statements (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and (2) grants and standard revenues that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The Village reports the following major governmental fund:

The General Fund is the general operating fund of the Village. It is used to account for all financial resources except those required to be accounted for in another fund.

The Motor Fuel Tax Fund is used to account for the activities related to street maintenance and construction. Financing is provided by the Village's restricted share of state gasoline taxes. State law requires that these gasoline taxes be used for street related purposes. Management of the Village has elected to report this fund as a major fund.

The Capital Improvements Fund is used to account for various capital projects that the Village funds with various restricted, committed and assigned revenues.

The Village reports the following major proprietary fund:

The Enterprise Fund accounts for the construction, operation and maintenance of the Village's owned water distribution system and sanitation services. Revenues are generated through charges to users based on water consumption and flat quarterly sanitation charge.

The Village reports pension trust funds as fiduciary funds to account for the Police Pension Fund and the Firefighters' Pension Fund. Furthermore, the Village reports the following agency fund as a fiduciary fund: Refundable Deposits Fund.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements, except for the agency funds, which have no measurement focus. Revenues and additions are recorded when earned and expenses and deductions are recorded when a liability is incurred. Property taxes are recognized as revenues in the year for which they are levied (i.e., intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Operating revenues/expenses include all revenues/expenses directly related to providing enterprise fund services. Incidental revenues/expenses are reported as non-operating.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The Village considers revenues other than property taxes to be available if they are collected within 90 days of the end of the current fiscal period. Expenditures generally are recorded when a fund liability is incurred. However, debt service expenditures are recorded only when payment is due.

Property taxes, sales and telecommunication taxes collected by the state at year end, franchise taxes, licenses, charges for services and interest associated with the current fiscal period are all considered to be susceptible to accrual and are recognized as revenues of the current fiscal period. Fines and permit revenue are considered to be measurable and available only when cash is received by the Village.

In applying the susceptible to accrual concept to intergovernmental revenues (i.e., federal and state grants), the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of these revenues. In one, monies must be expended on the specific purpose or project before any amounts will be paid to the Village; therefore, revenues are recognized based upon the expenditures/expenses recorded. In the other, monies are virtually unrestricted as to purpose of expenditure/expense and are generally revocable only for failure to comply with prescribed eligibility requirements, such as equal employment opportunity. These resources are reflected as revenues at the time of receipt or earlier if they meet the availability criterion.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation
(Continued)

The Village reports unearned/unavailable revenue on its financial statements. Deferred/unearned revenues arise when a potential revenue does not meet both the measurable and available or earned criteria for recognition in the current period. Deferred/unearned revenues also arise when resources are received by the Village before it has a legal claim to them or prior to the provision of services, as when grant monies are received prior to the incurrence of qualifying expenditures/expenses. In subsequent periods, when both revenue recognition criteria are met, or when the Village has a legal claim to the resources, the liability for unearned/unavailable revenue is removed from the financial statements and revenue is recognized.

e. Cash and Cash Equivalents

For purposes of the statement of cash flows, the Village considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents. Cash and cash equivalents includes cash on hand, savings accounts and checking accounts.

f. Investments

Village investments with a maturity greater than one year when purchased and all investment of the pension funds are reported at fair value based on published numbers as of April 30th. Fair value for the investments in Illinois Funds is the same as the value of the pool shares (created by the Illinois State Legislature under the control of the State Treasurer that maintains a \$1 per share value which is equal to the participant's fair value). The Illinois Metropolitan Investment Fund (IMET) is a not-for-profit investment trust formed pursuant to the Illinois Municipal Code and managed by a Board of Trustees elected from the participating members. IMET is not registered with the SEC as an investment company. Investments in IMET are valued at IMET's share price, the price for which the investment could be sold.

g. Inventory

Inventory in the governmental funds is recorded as expenditures at the time individual inventory items are purchased.

VILLAGE OF WESTCHESTER, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

h. Prepaid Items/Expenses

Certain payments reflect costs to future periods and are recoded as prepaid items/expenses in both the government-wide and governmental fund financial statements. Prepaid items/expenses are recorded as an asset when purchased and recognizes and expense/expenditure in the period in which they are consumed (e.g., consumption method).

i. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Village as assets with an initial, individual cost above a set dollar threshold based on the asset type (see chart below). All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are recorded at estimated fair market value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of asset or materially extend asset lives are not capitalized.

All reported capital assets except land and construction in progress are depreciated. Depreciation on all assets is provided on the straight-line method over the following estimated useful lives:

Capital Asset Category	Capitalization Threshold	Estimated Useful Life (in years)
Land	\$ 1,000	N/A
Land Improvements	10,000	N/A
Site Improvements	20,000	3-50
Building	30,000	10-80
Building Improvements	25,000	10-20
Vehicles, Machinery and Equipment	5,000	3-30
Software	25,000	2-7
Infrastructure - Street Network	50,000	20-80
Infrastructure - Water Network	75,000	20-80
Infrastructure - Sanitary Sewer	75,000	20-80
Infrastructure - Storm Sewer	50,000	20-80

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

j. Compensated Absences

Vested or accumulated vacation leave that is owed to retirees or terminated employees is reported as an expenditure and a fund liability of the governmental fund that will pay it. The government-wide financial statements record unused vacation leave as expenses and liabilities when earned by employees. Vested or accumulated vacation leave of proprietary funds is recorded as an expense and liability of those funds as the benefits accrue to employees. No liability is recorded for nonvesting sick leave.

k. Property Tax Revenue Recognition

The Village's property tax is levied each calendar year on all taxable real property located in the Village. The Village must file its tax levy ordinance for the year on or before the last Tuesday in December of each year. Taxes levied in one year become due and payable in two installments, on March 1 and September 1 of the following year. The first installment is an estimated bill equal to 55% of the prior year's tax bill. The second installment is based on the current levy, assessment and equalization and any changes from the prior year are reflected in the second installment bill. The levy becomes an enforceable lien against the property as of January 1 of the levy year.

For governmental funds, property taxes collected, which are used to finance the current year's operations, are recognized as revenue. Property taxes uncollected, which are to be used to finance the subsequent year's operations, are reported as net taxes receivable and unavailable revenue. The 2014 tax levy, which attached as an enforceable lien on property as of January 1, 2014, has not been recorded as a receivable as of April 30, 2014 as the tax has not yet been levied by the Village and will not be levied until December 2014 and, therefore, the levy is not measurable at April 30, 2014.

l. Interfund Receivables and Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered (interfund services). These receivables and payables are classified as "due from other funds" or "due to other funds" on the financial statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

m. Interfund Transactions

Interfund service transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other interfund transactions are recorded as transfers.

n. Deferred Inflows/Outflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has only one type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from one source: property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

o. Long-Term Debt

In the government-wide financial statements and proprietary funds in the fund financial statements, long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund financial statements. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed as incurred.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs are reported as expenditures.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

p. Fund Balances/Net Position

In the fund financial statements, governmental funds report nonspendable fund balance for amounts that are either not spendable in form or legally or contractually required to be maintained intact. Restrictions of fund balance are reported for amounts constrained by legal restrictions from outside parties for use for a specific purpose, or externally imposed by outside entities. None of the restricted fund balance result from enabling legislation adopted by the Village. Committed fund balance is constrained by formal actions of the Village's Board of Trustees (the Board), which is considered the Village's highest level of decision making authority. Formal actions include ordinances approved by the Board. Assigned fund balance represents amounts constrained by the Village's intent to use them for a specific purpose. The authority to assign fund balance has been delegated to the Finance Village Manager or Finance Director by the Board through adoption of Resolution No. 2012-269. Any residual fund balance in the general fund and any deficit fund balances of other governmental funds is reported as unassigned.

The Village's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending, the Village considers committed funds to be expended first followed by assigned and then unassigned funds.

The Village has established a targeted minimum fund balance policy for the general fund at 30% of the next year's annually budgeted operating expenditures and this is reported as unassigned fund balance.

In the government-wide financial statements, restricted net position is legally restricted by outside parties for a specific purpose. Net investment in capital assets is the book value of the capital assets, net of any debt outstanding that was issued to construct or acquire the capital assets and unspent debt proceeds. The Village holds certain restricted cash for payments of future debt service payments and accordingly, this restricted cash is classified as unspent debt proceeds.

q. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

VILLAGE OF WESTCHESTER, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

2. DEPOSITS AND INVESTMENTS

a. Village Investments

Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of a bank's failure, the Village's deposits may not be returned to it. The Village's investment policy requires pledging of collateral with a fair value of 110% of all bank balances in excess of federal depository insurance with the collateral held by an agent of the Village in the Village's name.

At April 30, 2014, \$13,550 of the Village's deposits with financial institutions were uninsured and uncollateralized.

Investments

The investments which the Village may purchase are limited by the Village's investment policy to the following (1) securities which are fully guaranteed by the United States Government as to principal and interest; (2) certain United States Government agency securities; (3) certificates of deposit or time deposits of banks and savings and loan associations which are insured by a federal corporation; (4) short-term discount obligations of the Federal National Mortgage Association; (5) certain short-term obligations of corporations (commercial paper) rated in the highest classifications by at least two of the major rating services; (6) fully collateralized repurchase agreements; (7) the State Treasurer's Illinois and Prime Funds and (8) money market mutual funds and certain other instruments.

The following table presents the investments and maturities of the Village's debt securities as of April 30, 2014:

Investment Type	Fair Value	Investment Maturities (in Years)			
		Less than 1	1-5	6-10	Greater than 10
IMET	\$ 1,070,518	\$ -	\$ 1,070,518	\$ -	\$ -
TOTAL	\$ 1,070,518	\$ -	\$ 1,070,518	\$ -	\$ -

Interest rate risk - the Village does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

VILLAGE OF WESTCHESTER, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

2. DEPOSITS AND INVESTMENTS (Continued)

a. Village Investments (Continued)

Investments (Continued)

Credit risk - the Village's general investment policy is to apply the prudent person rule: investments are made as a prudent person would be expected to act, with discretion and intelligence, to seek reasonable income, preserve capital and, in general, avoid speculative investments. The Village's investment policy limits investments in short-term obligations of corporations organized in the United States Government with assets exceeding \$500,000,000 if (1) such obligations are rated at the time of purchase at one of the three highest classifications established by at least two standard rating services and which mature not later than 180 days from the date of purchase; (2) such purchased obligations do not exceed 10% of the corporation's outstanding obligations and (3) no more than one-third of the public agency's funds may be invested in short-term obligations of corporations.

Credit ratings for the Village's investments in debt securities as described by Standard & Poor's and Moody's at April 30, 2014 are as follows:

Investment Type	Credit Rating	Percent of Investment Type	Percent of Total Investments
IMET	AAA	100%	59%

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Village will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the Village's investment policy requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment (DVP) basis with the underlying investments held by a third party acting as the Village's agent separate from where the investment was purchased. Illinois Funds and IMET are not subject to custodial credit risk.

Concentration of credit risk - the Village places no limit on the amount the Village may invest in any one issuer. More than 5% of the Village's investments are in Illinois Funds and IMET. These investments are 41% and 59%, respectively, of the Village's total investments.

VILLAGE OF WESTCHESTER, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

2. DEPOSITS AND INVESTMENTS (Continued)

b. Police Pension Fund Investments

The investments which the Police Pension Fund may purchase are limited by the Police Pension Fund's investment policy and Illinois law to the following (1) securities which are fully guaranteed by the United States Government as to principal and interest; (2) certain United States Government agency securities; (3) certificates of deposit or time deposits of banks and savings and loan associations which are insured by a federal corporation; (4) short-term discount obligations of the Federal National Mortgage Association; (5) certain short-term obligations of corporations (commercial paper) rated in the highest classifications by at least two of the major rating services; (6) fully collateralized repurchase agreements; (7) the State Treasurer's Illinois and Prime Funds and (8) money market and equity mutual funds, equities and certain other instruments.

The following schedule reports the fair values and maturities for the Police Pension Fund's investments as of April 30, 2014:

Investment Type	Fair Value	Investment Maturities (in Years)			
		Less than 1	1-5	6-10	Greater than 10
U.S. Treasury Notes	\$ 3,570,846	\$ 455,307	\$ 2,687,119	\$ 428,420	\$ -
Governmental National Mortgage	1,831	-	1,831	-	-
Federal Home Loan Mortgage Corporation	179,189	-	85,021	-	94,168
Federal National Mortgage Association	302,503	-	233,016	31,412	38,075
Corporate Bonds	4,691,809	110,752	1,848,685	2,568,671	163,701
State and Local Obligations	242,722	-	91,629	151,093	-
TOTAL	\$ 8,988,900	\$ 566,059	\$ 4,947,301	\$ 3,179,596	\$ 295,944

Interest rate risk - in accordance with the Police Pension Fund's investment policy, the Police Pension Fund limits its exposure to interest rate risk by structuring the portfolio to provide liquidity while at the same time matching investment maturities to projected fund liabilities. In addition, the fixed income portfolio should be structured allowing for a duration between three and eight years.

Credit risk - is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Police Pension Fund helps limit its exposure to credit risk by primarily investing in securities issued by the United States Government and/or its agencies that are implicitly guaranteed by the United States Government. The Police Pension Fund's investment policy establishes criteria for allowable investments; those

VILLAGE OF WESTCHESTER, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

2. DEPOSITS AND INVESTMENTS (Continued)

b. Police Pension Fund Investments (Continued)

criteria follow the requirements of the Illinois Pension Code but does not specifically address credit risk. The Investments in the securities of State and Local Obligations were all rated AA or better and United States government agencies were all rated AAA by Standard & Poor's or by Moody's Investors Services or were small issues that were unrated. In August 2011, U.S. Treasury and U.S. agency security ratings have been downgraded by Standard & Poor's rating agency to AA+. Investments in Corporate Obligations were all rated BBB or better. Unrated investments are listed in the following table.

Investment Type	Par Value	Interest Rate	Maturity Date
Federal Home Loan Mtg. Corp.	\$ 51,250	2.412%	May 1, 2036
Federal Home Loan Mtg. Corp.	37,582	2.518%	July 1, 2036
Federal National Mortgage Assn.	29,416	5.500%	October 1, 2023
Federal National Mortgage Assn.	37,331	4.000%	September 1, 2040

The Police Pension Fund's investment policy also prescribes to the prudent person rule, which states, "Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the primary objective of safety as well as the secondary objective of the attainment of market rates of return."

Custodial credit risk for deposits with financial institutions is the risk that in the event of a bank's failure, the Police Pension Fund's deposits may not be returned to it. The Police Pension Fund's investment policy does not require pledging of collateral for all bank balances in excess of federal depository insurance, since flow through FDIC insurance may be available for the Police Pension Fund's deposits with financial institutions.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Police Pension Fund will not be able to recover the value of its investments that are in the possession of an outside party. The Police Pension Fund's investment policy requires securities to be held by a custodian. The Police Pension Fund allows the investment broker purchasing the investment to also serve as custodian, but requires the investment broker to acquire an excess SIPC policy to provide the same coverage over the portfolio as SIPC.

VILLAGE OF WESTCHESTER, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

2. DEPOSITS AND INVESTMENTS (Continued)

b. Police Pension Fund Investments (Continued)

Concentration of credit risk - is the risk of loss attributed to the magnitude of the Police Pension Fund's investment in a single issuer. The Police Pension Fund does not have a formal written policy with regards to concentration credit risk for investments. At year end, the Police Pension Fund has over 5% of net plan assets invested in various agency securities as indicated in the table above and various mutual funds.

c. Firefighters' Pension Fund Investments

The investments which the Firefighters' Pension Fund may purchase are limited by Illinois law to the following (1) securities which are fully guaranteed by the United States Government as to principal and interest; (2) certain United States Government agency securities; (3) certificates of deposit or time deposits of banks and savings and loan associations which are insured by a federal corporation; (4) short-term discount obligations of the Federal National Mortgage Association; (5) certain short-term obligations of corporations (commercial paper) rated in the highest classifications by at least two of the major rating services; (6) fully collateralized repurchase agreements; (7) the State Treasurer's Illinois and Prime Funds and (8) money market and equity mutual funds, equity securities and certain other instruments.

The following schedule reports the fair values and maturities (using the segmented time distribution method) for the Firefighters' Pension Fund's investments as of April 30, 2014:

Investment Type	Fair Value	Investment Maturities (in Years)			
		Less than 1	1-5	6-10	Greater than 10
State and Local Obligations	\$ 247,242	\$ -	\$ 134,697	\$ 112,545	\$ -
U.S. Treasury Notes	2,746,811	657,459	1,942,652	146,700	-
Governmental National Mortgage Association	91,428	-	9,718	18,236	63,474
Federal Home Loan Mortgage Corporation	74,982	74,982	-	-	-
Federal National Mortgage Association	329,298	-	329,298	-	-
Corporate Bonds	3,415,345	30,258	1,643,256	1,631,100	110,731
TOTAL	\$ 6,905,106	\$ 762,699	\$ 4,059,621	\$ 1,908,581	\$ 174,205

VILLAGE OF WESTCHESTER, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

2. DEPOSITS AND INVESTMENTS (Continued)

c. Firefighters' Pension Fund Investments (Continued)

Interest rate risk - is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with the Firefighters' Pension Fund's investment policy, the Firefighters' Pension Fund limits its exposure to interest rate risk by structuring the portfolio to provide liquidity while at the same time matching investment maturities to projected fund liabilities. In addition, the fixed income portfolio should be structured allowing for a duration between three and eight years.

Credit risk - is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Firefighters' Pension Fund helps limit its exposure to credit risk by primarily investing in securities issued by United States Government and/or its agents that are implicitly guaranteed by the United States Government. The Firefighters' Pension Fund's investment policy established criteria for allowable investments; those criteria follow the requirements of the Illinois Pension Code but does not specifically address credit risk. The investments in the securities of State and Local Obligations were all rated AA or better and United States government agencies were all rated triple A by Standard & Poor's or by Moody's Investors Services or were small issues that were unrated. In August 2011, U.S. Treasury and U.S. agency security ratings have been downgraded by Standard & Poor's rating agency to AA+. Investments in Corporate Obligations were all rated BBB or better. Unrated investments are listed in the following table.

Investment Type	Par Value	Interest Rate	Maturity Date
Government Natl Mortgage Assn.	\$ 10,725	5.0%	April 15, 2019
Government Natl Mortgage Assn.	13,084	5.0%	June 15, 2019
Government Natl Mortgage Assn	8,915	5.5%	August 15, 2019

The Firefighters' Pension Fund's investment policy also prescribes to the prudent person rule, which states, "Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the primary objective of safety as well as the secondary objective of the attainment of market rates of return."

VILLAGE OF WESTCHESTER, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

2. DEPOSITS AND INVESTMENTS (Continued)

c. Firefighters' Pension Fund Investments (Continued)

Custodial credit risk for deposits with financial institutions is the risk that in the event of a bank's failure, the Firefighters' Pension Fund's deposits may not be returned to it. The Firefighters' Pension Fund's investment policy does not require pledging of collateral for all bank balances in excess of federal depository insurance, since flow through FDIC insurance may be available for the Firefighters' Pension Fund's deposits with financial institutions.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Firefighters' Pension Fund will not be able to recover the value of its investments that are in the possession of an outside party. The Firefighters' Pension Fund's investment policy requires securities to be held by a custodian. The Firefighters' Pension Fund allows the investment broker purchasing the investment to also serve as custodian, but requires the investment broker to acquire an excess SIPC policy to provide the same coverage over the portfolio as SIPC.

Concentration of credit risk - this is the risk of loss attributed to the magnitude of the Firefighters' Pension Fund's investment in a single issuer. The Firefighters' Pension Fund does not have a formal written policy with regards to concentration credit risk for investments. At year end, the Firefighters' Pension Fund has over 5% of net plan assets invested in various agency securities as indicated in the table above and various mutual funds.

3. INTERFUND TRANSACTIONS

Due from/to other funds as of April 30, 2014 are summarized below:

Amount of debt applicable to debt limit	<u>10,095,000</u>
LEGAL DEBT MARGIN	<u>\$ 30,677,765</u>

Chapter 24, Section 8-5-1 of the Illinois Revised Statutes provides, "...no municipality having a population of less than 500,000 shall become indebted in any manner or for any purpose, to an amount, including existing indebtedness in the aggregate exceeding 8.625% on the value of the taxable property therein, to be ascertained by the last assessment for state and county purposes, previous to the incurring of the indebtedness or, until January 1, 1983, if greater, the sum that is produced by multiplying the municipality's 1978 equalized valuation by the debt limitation percentage in effect on January 1, 1979."

Other Non-Obligation Type Bonded Debt

On June 27, 2012, the Village passed a resolution enabling the Village to provide, of not to exceed \$7,000,000 of financing, for the refinancing of existing loans for a high school building by the issuance of industrial revenue bonds. The bonds are secured solely by the property financed. The Village is not obligated in any manner for the repayment of the bonds. Accordingly, the bonds outstanding are not reported as a liability in these financial statements. As of April 30, 2014, the principal amount payable for the bonds was indeterminable. The original issue amounts of the bonds were \$6,825,000.

7. EMPLOYEE RETIREMENT SYSTEMS

The Village contributes to three defined benefit pension plans, the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer public employee retirement system; the Police Pension Plan which is a single-employer pension plan; and the Firefighters' Pension Plan which is also a single-employer pension plan. The benefits, benefit levels, employee contributions and employer contributions for all three plans are governed by Illinois Compiled Statutes (ILCS) and can only be amended by the Illinois General Assembly. The Police Pension Plan and Firefighters' Pension Plan issue separate reports which may be obtained from the Village at 10300 Roosevelt Rd., Westchester, Illinois 60154. IMRF issues a publicly available report that includes financial statements and supplementary information for the plan as a whole, but not for individual employers. That report can be obtained from IMRF, 2211 York Road, Suite 500, Oak Brook, Illinois 60523.

a. Plan Descriptions

Illinois Municipal Retirement Fund (IMRF)

All employees (other than those covered by the Police Pension Plan or Firefighters' Pension Plan) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years and 2% for each year thereafter.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with ten years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years and 2% for each year thereafter.

IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute. Participating members are required to contribute 4.5% of their annual salary to IMRF. The Village is required to contribute the remaining amounts necessary to fund the IMRF as specified by statute. The employer contribution rate for calendar year 2013 used by the employer was 13.16% of annual covered payroll. The employer annual required contribution rate for calendar year 2013 was 13.9%.

VILLAGE OF WESTCHESTER, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

7. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Police Pension Plan

Police sworn personnel are covered by the Police Pension Plan. Although this is a single-employer pension plan, the defined benefits and employee and employer contribution levels are governed by Illinois Compiled Statutes (40 ILCS 5/3-1) and may be amended only by the Illinois legislature. The Village accounts for the Police Pension Plan as a pension trust fund. At April 30, 2013 (date of latest actuarial valuation), the Police Pension Plan membership consisted of:

Retirees and Beneficiaries Currently Receiving Benefits and Terminated Employees Entitled to Benefits but not yet Receiving Them	30
Current Employees	
Vested	21
Nonvested	10
	<hr/>
TOTAL	61
	<hr/>

The Police Pension Plan provides retirement benefits through two tiers of benefits as well as death and disability benefits. Tier 1 employees (those hired prior to January 1, 2011) attaining the age of 50 or older with 20 or more years of creditable service are entitled to receive an annual retirement benefit equal to one-half of the salary attached to the rank held on the last day of service, or for one year prior to the last day, whichever is greater. The annual benefit shall be increased by 2.5% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least eight years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit. The monthly benefit of a police officer who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3% of the original pension and 3% compounded annually thereafter.

Tier 2 employees (those hired on or after January 1, 2011) attaining the age of 55 or older with ten or more years of creditable service are entitled to receive an annual retirement benefit equal to the average monthly salary obtained by dividing the total salary of the police officer during the 96 consecutive months of service within the last 120 months of service in which the total salary was the highest by the number of months of service in that period. Police officers' salary for pension purposes is capped at \$106,800, plus the lesser of ½ of the annual change in the Consumer Price Index or 3% compounded. The annual benefit shall be increased by 2.5% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least ten years may retire at or after age 50 and receive a reduced benefit (i.e., ½% for each month under 55).

7. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Police Pension Plan (Continued)

The monthly benefit of a Tier 2 police officer shall be increased annually at age 60 on the January 1st after the police officer retires, or the first anniversary of the pension starting date, whichever is later. Noncompounding increases occur annually, each January thereafter. The increase is the lesser of 3% or ½ of the change in the Consumer Price Index for the proceeding calendar year.

Employees are required by ILCS to contribute 9.91% of their base salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Village is required to contribute the remaining amounts necessary to finance the Police Pension Plan as actuarially determined by an enrolled actuary. Effective January 1, 2011, the Village has until the year 2040 to fund 90% the past service costs for the Police Pension Plan. For the year ended April 30, 2014, the Village's contribution was 40.73% of covered payroll.

Firefighters' Pension Plan

Fire sworn personnel are covered by the Firefighters' Pension Plan. Although this is a single-employer pension plan, the defined benefits and employee and employer contribution levels are governed by Illinois Compiled Statutes (40 ILCS 5/4-1) and may be amended only by the Illinois legislature. The Village accounts for the Firefighters' Pension Plan as a pension trust fund. At April 30, 2013 (date of latest actuarial valuation), the Firefighters' Pension Plan membership consisted of:

Retirees and Beneficiaries Currently Receiving Benefits and Terminated Employees Entitled to Benefits but not yet Receiving Them	27
Current Employees	
Vested	16
Nonvested	11
	<hr/>
TOTAL	54
	<hr/> <hr/>

7. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Firefighters' Pension Plan (Continued)

The Firefighters' Pension Plan provides retirement benefits through two tiers of benefits as well as death and disability benefits. Tier 1 employees (those hired prior to January 1, 2011) attaining the age of 50 or older with 20 or more years of creditable service are entitled to receive an annual retirement benefit equal to one-half of the salary attached to the rank held at the date of retirement. The annual benefit shall be increased by 2.5% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least ten years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit. The monthly benefit of a covered employee who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3% of the original pension and 3% compounded annually thereafter.

Tier 2 employees (those hired on or after January 1, 2011) attaining the age of 55 or older with ten or more years of creditable service are entitled to receive an annual retirement benefit equal to the average monthly salary obtained by dividing the total salary of the firefighter during the 96 consecutive months of service within the last 120 months of service in which the total salary was the highest by the number of months of service in that period. Firefighters' salary for pension purposes is capped at \$106,800, plus the lesser of ½ of the annual change in the Consumer Price Index or 3% compounded. The annual benefit shall be increased by 2.5% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least 10 years may retire at or after age 50 and receive a reduced benefit (i.e., ½% for each month under 55). The monthly benefit of a Tier 2 firefighter shall be increased annually at age 60 on the January 1st after the firefighter retires, or the first anniversary of the pension starting date, whichever is later. Noncompounding increases occur annually, each January thereafter. The increase is the lesser of 3% or ½ of the change in the Consumer Price Index for the proceeding calendar year.

Covered employees are required to contribute 9.455% of their base salary to the Firefighters' Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Village is required to finance the Firefighters' Pension Plan as actuarially determined by an enrolled actuary. Effective January 1, 2011, the Village has until the year 2040 to fund 90% the past service costs for the Firefighters' Pension Plan. For the year ended April 30, 2014, the Village's contribution was 29.5% of covered payroll.

VILLAGE OF WESTCHESTER, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

7. EMPLOYEE RETIREMENT SYSTEMS (Continued)

b. Significant Investments

There are no significant investments (other than United States Government guaranteed obligations) in any one organization that represent 5% or more of plan net assets for either the Police Pension Plan or the Firefighters' Pension Plan. Information for the IMRF is not available.

c. Annual Pension Costs

Employer contributions have been determined as follows:

	Illinois Municipal Retirement	Police Pension	Firefighters' Pension
Actuarial Valuation Date	December 31, 2011	April 30, 2013	April 30, 2013
Actuarial Cost Method	Entry-age Normal	Entry-age Normal	Entry-age Normal
Asset Valuation Method	5 Year Smoothed Market	5 Year Smoothed Market	5 Year Smoothed Market
Amortization Method	Level Percentage of Payroll	Level Percentage of Payroll	Level Percentage of Payroll
Amortization Period	30 Years, Open	24 Years, Closed	24 Years, Closed
Significant Actuarial Assumptions			
a) Rate of Return on Present and Future Assets	7.50% Compounded Annually	7.00% Compounded Annually	7.00% Compounded Annually
b) Projected Salary Increase - Attributable to Inflation	4.00% Compounded Annually	2.50% Compounded Annually	2.50% Compounded Annually
c) Additional Projected Salary Increases - Seniority/Merit	.40% to 10.00%	4.00% Compounded Annually	4.00% Compounded Annually

NOTES TO FINANCIAL STATEMENTS (Continued)

7. EMPLOYEE RETIREMENT SYSTEMS (Continued)

c. Annual Pension Costs (Continued)

Employer annual pension costs (APC), actual contributions and the net pension obligation (NPO) are as follows. The NPO is the cumulative difference between the APC and the contributions actually made.

	For Fiscal Year	Illinois Municipal Retirement	Police Pension	Firefighters' Pension
Annual Pension Cost (APC)	2012	\$ 335,369	\$ 986,937	\$ 738,782
	2013	357,837	995,235	653,459
	2014	365,274	1,040,625	733,941
Actual Contribution	2012	\$ 281,706	\$ 986,248	\$ 785,360
	2013	318,775	788,521	645,380
	2014	348,487	982,940	605,068
Percentage of APC Contributed	2012	84.00%	99.93%	106.30%
	2013	89.08%	79.23%	98.76%
	2014	95.40%	94.46%	82.44%
NPO	2012	\$ 130,631	\$ 1,138,479	\$ 771,145
	2013	169,693	1,345,193	779,224
	2014	186,480	1,402,877	908,097

The NPO (asset) has been calculated as follows:

	Illinois Municipal Retirement	Police Pension	Firefighters' Pension
Annual Required Contribution	\$ 361,644	\$ 1,024,930	\$ 724,849
Interest on Net Pension Obligation	12,727	94,164	54,545
Adjustment to Annual Required Contributions	(9,097)	(78,469)	(45,454)
Annual Pension Cost	365,274	1,040,625	733,940
Contributions Made	348,487	982,941	605,068
Increase in Net Pension Obligation	16,787	57,684	128,872
Net Pension Obligation, Beginning of Year	169,693	1,345,193	779,225
NET PENSION OBLIGATION, END OF YEAR	\$ 186,480	\$ 1,402,877	\$ 908,097

VILLAGE OF WESTCHESTER, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

7. EMPLOYEE RETIREMENT SYSTEMS (Continued)

d. Funded Status

The funded status of the plans as of April 30, 2014 is as follows. The actuarial assumptions used to determine the funded status of the plans are the same actuarial assumptions used to determine the employer APC of the plans as disclosed in Note 7-c:

	Illinois Municipal Retirement	Police Pension	Firefighters' Pension
Actuarial Valuation Date	December 31, 2013	April 30, 2013	April 30, 2013
Actuarial Accrued Liability (AAL)	\$ 5,739,874	\$ 35,256,514	\$ 26,205,425
Actuarial Value of Plan Assets	3,284,876	24,119,525	19,696,636
Unfunded Actuarial Accrued Liability (UAAL)	2,454,998	11,136,989	6,508,789
Funded Ratio (Actuarial Value of Plan Assets/AAL)	57.53%	68.41%	75.16%
Covered Payroll (Active Plan Members)	\$ 2,523,397	\$ 2,413,295	\$ 2,048,629
UAAL as a Percentage of Covered Payroll	97.29%	461.48%	317.71%

See the schedules of funding progress in the required supplementary information immediately following the notes to financial statements for additional information related to the funded status of the plans.

8. CONTINGENT LIABILITIES

Litigation

The Village is a defendant in various lawsuits. Although the outcome of these lawsuits is not properly determinable, in the opinion of the Village's attorney the resolution of these matters will not have a material adverse effect on the financial condition of the Village.

9. RISK MANAGEMENT

The Village is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; employee health; natural disasters; illnesses of employees and injuries to the Village's employees.

9. RISK MANAGEMENT (Continued)

Intergovernmental Risk Management Agency (IRMA)

The Village participates in the Intergovernmental Risk Management Agency (IRMA). IRMA is an organization of municipalities and special districts in northeastern Illinois that have formed an association under the Illinois Intergovernmental Cooperations Statute to pool their risk management needs. IRMA administers a mix of self-insurance and commercial insurance coverages; property/casualty and workers' compensation claim administration/litigation management services; unemployment claim administration; extension risk management/loss control consulting and training programs and a risk information system and financial reporting service for its members.

The Village's payments to IRMA are displayed on the financial statements as expenditures/expenses in appropriate funds. Each member assumes the first \$2,500 of each occurrence and IRMA has a mix of self-insurance and commercial insurance at various amounts above that level.

Each member appoints one delegate, along with an alternate delegate, to represent the member on the Board of Directors. The Village does not exercise any control over the activities of IRMA beyond its representation on the Board of Directors.

Initial contributions are determined each year based on the individual member's eligible revenue as defined in the bylaws of IRMA and experience modification factors based on past member loss experience. Members have a contractual obligation to fund any deficit of IRMA attributable to a membership year during which they were a member. Supplemental contributions may be required to fund these deficits. There were no significant reductions in insurance coverage during the year. The Village did not have any claims that exceeded insurance coverage for the last three fiscal years.

10. OTHER POSTEMPLOYMENT BENEFITS

a. Plan Description

In addition to providing the pension benefits described, the Village provides postemployment health care and life insurance benefits (OPEB) for retired employees through a single-employer defined benefit plan. The benefits, benefit levels, employee contributions and any employer contributions are governed by the Village and can be amended by the Village through its personnel manual and union contracts. The plan is not accounted for as a trust fund, as an irrevocable trust has not been established to account for the plan. The plan does not issue a separate report. The activity of the plan is reported in the Village's Governmental Activities.

10. OTHER POSTEMPLOYMENT BENEFITS (Continued)

b. Benefits Provided

The Village provides postemployment health care and life insurance benefits to its retirees. To be eligible for benefits, an employee must qualify for retirement under one of the Village's retirement plans or meet COBRA requirements.

All health care benefits are provided through the Village's health insurance plan. The benefit levels are the same as those afforded to active employees. Benefits include general inpatient and outpatient medical services; mental, nervous and substance abuse care; vision care; dental care and prescriptions. Eligibility in Village sponsored health care plans is discontinued upon eligibility for federally sponsored health care benefits.

c. Membership

At April 30, 2012, (latest information available), membership consisted of:

Retirees and Beneficiaries Currently Receiving Benefits	13
Terminated Employees Entitled to Benefits but not Yet Receiving Them	-
Active Employees	<u>110</u>
 TOTAL	 <u>123</u>
 Participating Employers	 <u><u>1</u></u>

d. Funding Policy

The Village negotiates the contribution percentages between the Village and employees through the union contracts and personnel policy. All retirees (except as noted below) contribute 100% of the actuarially determined premium to the plan to cover the cost of providing the benefits to the retirees (pay as you go) which results in an implicit subsidy to the Village as defined by the GASB Statement No. 45. In addition, the Village pays \$100 of the monthly health insurance premium for two retirees. For the fiscal year ended April 30, 2014, retirees contributed \$203,931 and the Village contributed \$41,994. The Village is not required to and currently does not advance fund the cost of benefits that will become due and payable in the future. Active employees do not contribute to the plan until retirement.

VILLAGE OF WESTCHESTER, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

10. OTHER POSTEMPLOYMENT BENEFITS (Continued)

e. Annual OPEB Costs and Net OPEB Obligation

The Village's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for April 30, 2012, 2013 and 2015 was as follows:

Fiscal Year Ended	Annual OPEB Cost	Employer Contributions	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation (Asset)
April 30, 2012	\$ 40,489	\$ 41,994	103.7%	\$ (4,939)
April 30, 2013	40,489	41,994	103.7%	(6,454)
April 30, 2014	40,489	41,994	103.7%	(7,979)

The net OPEB obligation (NOPEBO) as of April 30, 2014, was calculated as follows:

Annual Required Contribution	\$ 40,512
Interest on Net OPEB Obligation	(258)
Adjustment to Annual Required Contribution	<u>215</u>
Annual OPEB Cost	40,469
Contributions Made	<u>41,994</u>
Increase in Net OPEB Obligation	(1,525)
Net OPEB Obligation (Asset), Beginning of Year	<u>(6,454)</u>
NET OPEB OBLIGATION (ASSET), END OF YEAR	<u>\$ (7,979)</u>

Funded Status and Funding Progress. The funded status of the plan as of April 30, 2012 (latest information available) was as follows:

Actuarial Accrued Liability (AAL)	\$ 1,627,299
Actuarial Value of Plan Assets	-
Unfunded Actuarial Accrued Liability (UAAL)	1,627,299
Funded Ratio (Actuarial Value of Plan Assets/AAL)	0.00%
Covered Payroll (Active Plan Members)	\$ 7,025,713
UAAL as a Percentage of Covered Payroll	23.16%

10. OTHER POSTEMPLOYMENT BENEFITS (Continued)

e. Annual OPEB Costs and Net OPEB Obligation (Continued)

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to financial statements, presents multi-year trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the April 30, 2012 actuarial valuation (latest information available), the entry-age actuarial cost method was used. The actuarial assumptions included a 4% investment rate of return (net of administrative expenses), an initial annual healthcare cost trend rate of 8% and an ultimate healthcare cost trend rate of 6%. All three rates include a 3% inflation assumption. The actuarial value of assets was not determined as the Village has not advance funded its obligation. The plan's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open, 30 year basis.

VILLAGE OF WESTCHESTER, ILLINOIS

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

April 30, 2014

BUDGETS

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriated budgets are adopted for the General, Motor Fuel Tax Capital Improvements, 911, Hotel/Motel Tax and Water funds. All annual appropriations lapse at fiscal year end.

All departments of the Village submit requests for appropriation to the Village's manager so that a budget may be prepared. The budget is prepared by fund, function and activity and includes information on the past year, current year estimates and requested appropriations for the next fiscal year.

The proposed budget is presented to the governing body for review. The governing body holds public hearings and may add to, subtract from or change appropriations, but may not change the form of the budget.

The budget may be amended by the governing body.

Expenditures may not legally exceed budgeted appropriations at the fund level. There were two budget amendments during the year.

STATISTICAL SECTION

This part of the Village of Westchester, Illinois' comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information displays about the Village's overall financial health.

<u>Contents</u>	<u>Page(s)</u>
Financial Trends These schedules contain trend information to help the reader understand how the Village's financial performance and well-being have changed over time.	67-76
Revenue Capacity These schedules contain information to help the reader assess the Village's most significant local revenue source, the property tax.	77-83
Debt Capacity These schedules present information to help the reader assess the affordability of the Village's current levels of outstanding debt and the Village's ability to issue additional debt in the future.	84-87
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the Village's financial activities take place.	88-89
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the Village's financial report relates to the services the Village provides and the activities it performs.	90-93

Sources: Unless otherwise noted, the information in these schedules is derived from the annual financial reports for the relevant year. The Village implemented GASB Statement No. 34 in 2005; schedules presenting government-wide information include information beginning in that year.
